

ALUMINIUM

A beautifully contemporary choice

The beauty of aluminium

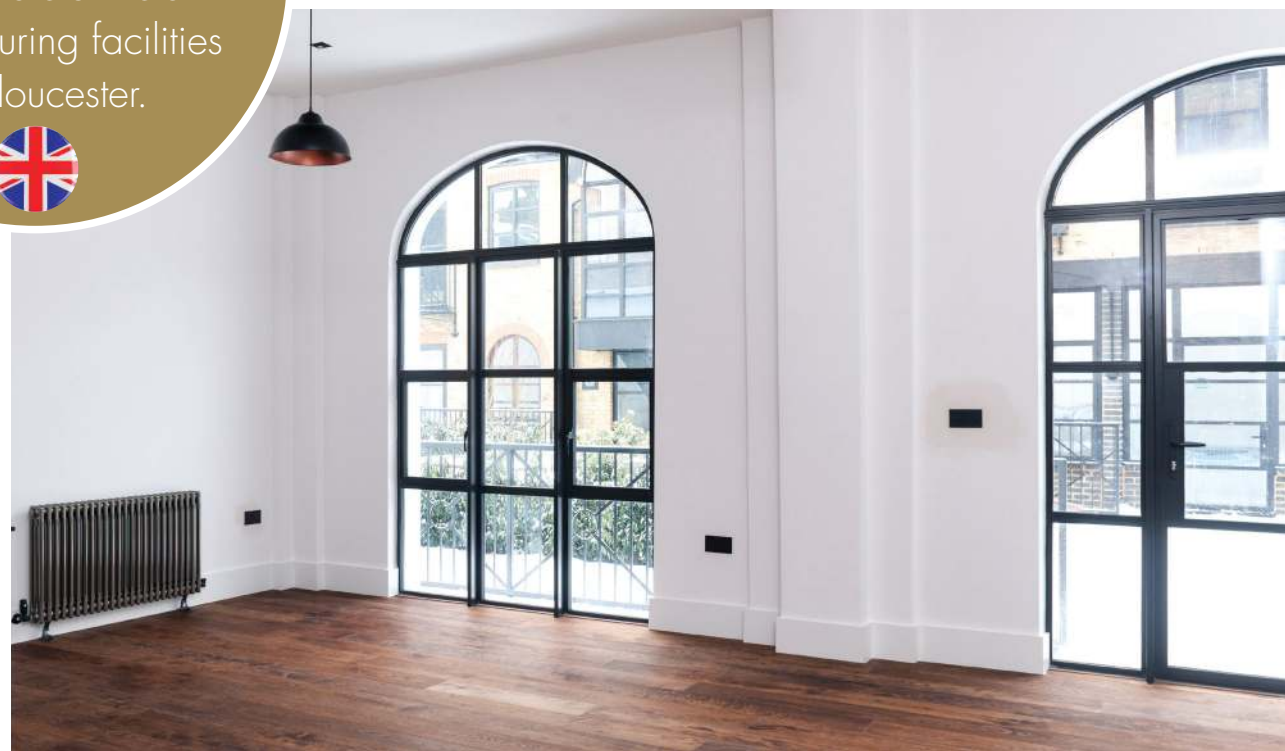

There's no mistaking the class of aluminium – it brings an understated and sophisticated touch to every home. What's more, you'll find it's just as good for bringing contemporary style to a modern home as it is restoring heritage elegance to a period property.

At the same time, superior strength and high security help keep your home and loved ones safe. Impressive thermal efficiency means your home stays warmer in winter and cooler in summer. Aluminium is extremely low maintenance yet exceptionally durable for a long lifespan. It's also endlessly recyclable, so it's a planet-friendly choice.

We're proud to say
all our products are
made in Britain by skilled
staff in state-of-the-art
manufacturing facilities
in Gloucester.

Make a stunning lifestyle statement

Aluminium bifold doors are an impressive way to connect your home and your garden. When they're closed, you flood your home with plenty of natural light and enjoy expansive views of your garden. When they're fully open, you experience the ultimate in indoor-outdoor living with a seamless connection between the two.

Our aluminium bifold doors use the latest technology so you get substance as well as style. You'll enjoy doors that can be opened and closed effortlessly, as well as robust security and excellent thermal efficiency.

Our bifold doors are available in a wide range of opening configurations so you can choose the options that's right for you and your home.

ALUMINIUM PATIO DOORS

Our aluminium patio door range includes both inline sliding doors and lift & slide doors - all you have to do is choose which one is right for you.

A beautiful wall of glass

The joy of aluminium patio doors is the huge expanse of glass you can bring to your home. Each pane can be up to three metres wide, so your home benefits from extraordinary levels of natural light. It also means there are fewer frames to interrupt your view of your garden as the glass takes centre stage so you can create a beautifully streamlined appearance.

Our aluminium sliding doors offer state-of-the-art quality, including stainless steel rails, so you'll find the opening panel is easy to use, no matter how big it is. You'll also find the doors easy to maintain for a lifetime of use.

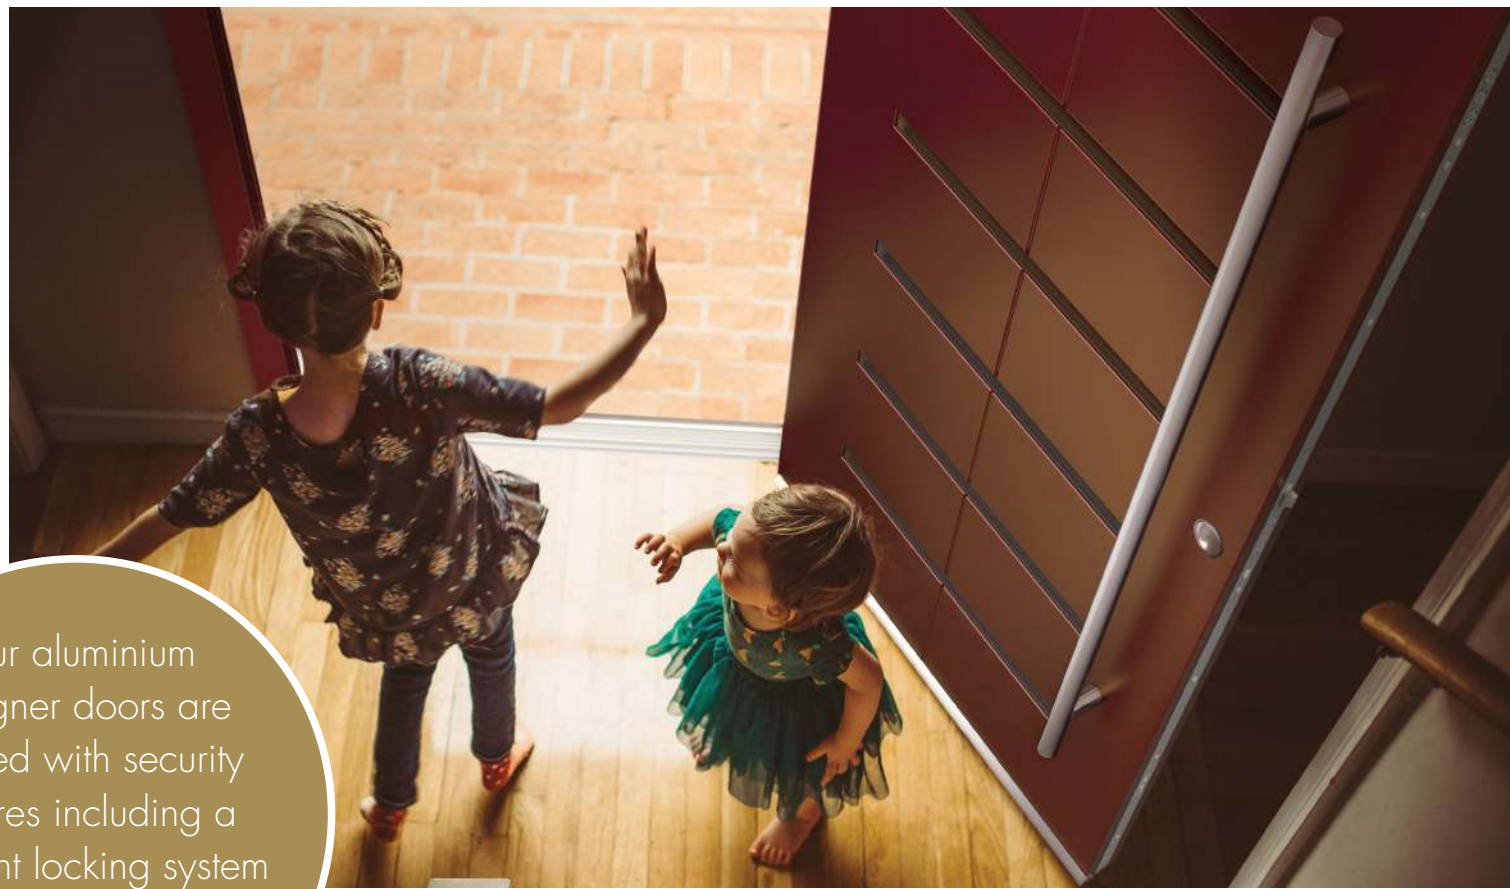

A premium door that delivers style and practicality

There's the perfect door for every home in our range of premium aluminium designer doors. From sophisticated contemporary styles to traditional Victorian aesthetics, every door is available in a range of colours and comes with a selection of optional bespoke accessories to truly personalise your choice.

No matter which style you choose or which accessories you pick, you'll have a robust, secure, easy-to-maintain and thermally efficient door designed to last a lifetime. It's the ideal package of style and practicality - no need to compromise.

Our aluminium designer doors are packed with security features including a 10-point locking system to give you complete peace of mind.

ALUMINIUM CASEMENT WINDOWS

Ovolo, chamfered or square-edged frames, side or top hung sashes, open in or open out - with our aluminium casement windows, the choice is yours.

An elegantly understated classic

The classic aesthetics of our aluminium casement windows make them the perfect alternative to traditional timber windows. Equally at home in contemporary and period properties, they are available in a wide choice of colours and finishes that mean you can create exactly the look you want.

Despite their timeless appeal, our aluminium casement windows are packed with all the benefits of a modern window including impressive thermal efficiency, premium security technology and low maintenance practicality.

Recreate the distinctive aesthetics of steel windows

Original steel and Crittall windows are a beautiful design feature it's right to want to preserve or recreate. With our aluminium heritage windows you can do just that – without compromising on modern day benefits.

Available in heritage and art deco options, our aluminium heritage windows are suitable for listed buildings and buildings in conservation areas. They combine beautifully authentic style with low maintenance, effective thermal efficiency and improved security.

Our aluminium heritage windows are available in a wide range of colours and finishes so you can create the look that's exactly right for your home.

ALUMINIUM SASH WINDOWS

Like all our windows and doors, our aluminium sash windows are made to order to your precise specifications for a perfect finish.

Traditional looks with modern convenience

Our aluminium sash windows are perfect for replacing traditional timber sliding sash windows and recreating heritage style in historically sensitive buildings. Their classic, understated style also makes them ideal for bringing heritage character to modern homes.

At the same time, there's no compromise on performance. They are strong and secure for peace of mind. They are thermally efficient to improve the insulation in your home. And they are easy-to-use and easy-to-maintain for a lifetime of use.

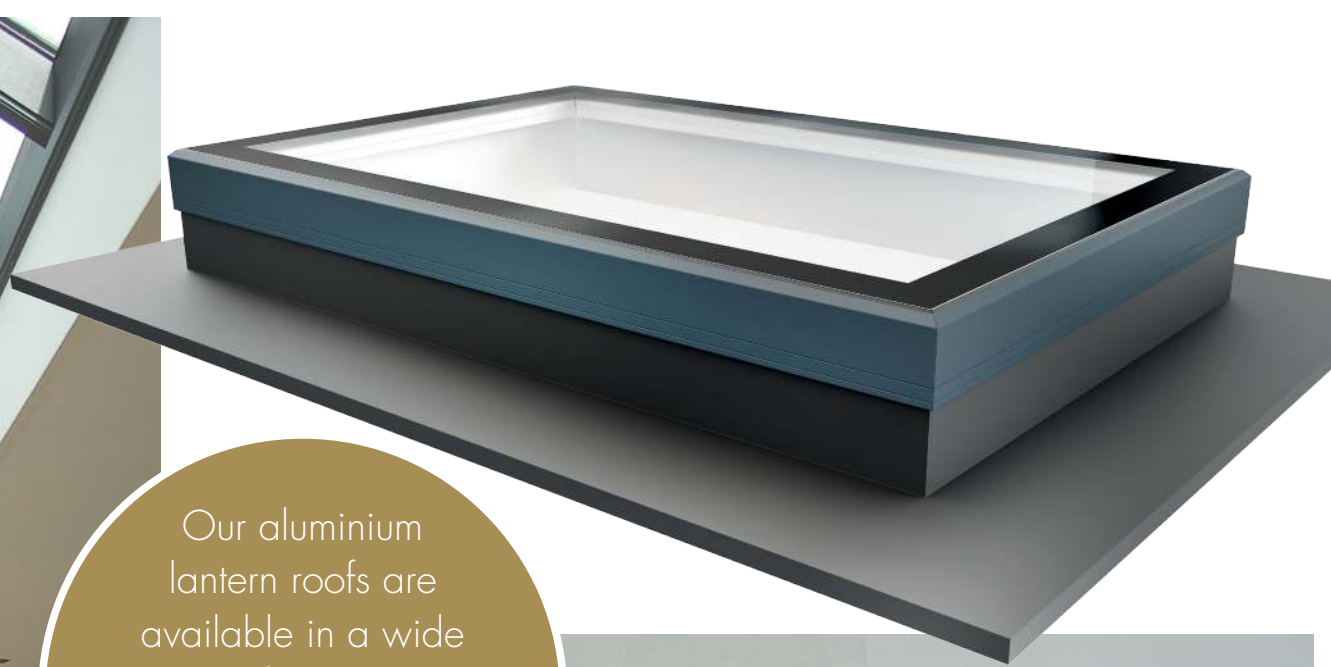

Create a light and airy space

The elegant, pyramid shape of an aluminium lantern roof brings a minimalist, sophisticated feel to any room. You gain a lighter, brighter, airier room in the day, while at night you can enjoy gazing at the stars.

Perfect for single storey extensions, the slim frames are beautifully understated and ensure you maximise natural light. At the same time, the exceptional thermal efficiency means there's no need to compromise the insulation of your home.

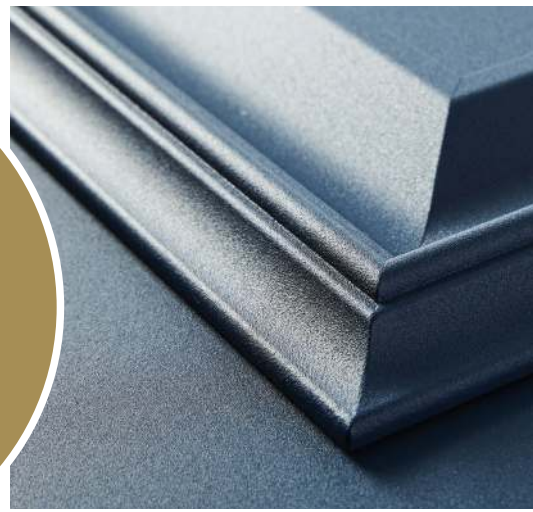

Our aluminium lantern roofs are available in a wide range of colours and styles so you can choose the look that's right for your home.

With us, you can rest assured you're choosing high quality products that will enhance your home and lifestyle.

Everything you'd expect from quality products and more

All our products are manufactured to the highest of standards by skilled craftspeople in state-of-the-art premises in Gloucestershire. As standard, every product will meet minimum requirements for thermal efficiency and security. In many cases, you can also upgrade your order to achieve the industry's highest standards of efficiency or security.

Our windows and doors are available in a wide range of standard colours that run from classic to contemporary. You can also choose a bespoke colour if you would like to create a truly customised look.
